AGILE ROBOTS

Certificate

Mr. Hassan Umari, born on March 25, 1991, worked at our company as a Software Robotics Engineer in the Software/Software Infrastructure/Task Control Interfaces department from April 1, 2021, to September 30, 2022.

Agile Robots AG is a high-tech startup based in Munich. Agile Robots is a spin-off of the German Aerospace Center (DLR) and aims to revolutionize the market with its intelligent robot solutions. Our mission is to bridge the gap between artificial intelligence and robotics by developing systems that combine state-of-the-art force-torque sensors with world-leading image processing technology. This unique combination of technologies enables us to offer intelligent, user-friendly, and affordable robotic solutions that facilitate safe human-robot interaction.

As part of this role, Mr. Umari was responsible for the following tasks:

- Development of a software framework for controlling robot behavior
- Integration of complex robotic systems
- Development of web services to access robot capabilities via a web UI
- Creating tests to ensure the quality of software stacks
- Development of software tools for monitoring and controlling complex process groups
- Integration of complex software for industrial clients in China

Mr. Umari possesses outstanding expertise that is also very in-depth in peripheral areas, which he consistently applied in a highly beneficial manner within our company. Thanks to his excellent comprehension, he was always able to immediately grasp even difficult situations accurately and quickly find excellent solutions. Mr. Umari consistently demonstrated a high degree of initiative and identified wholeheartedly with his tasks and our company, impressing us with his exemplary enthusiasm. Even in situations with the heaviest workload, he consistently proved to be exceptionally resilient.

He carried out all tasks at all times completely independently, with the utmost care, and in a well-planned and thoughtful manner. He always acted calmly, deliberately, goal-oriented, and with the highest degree of precision. In doing so, he consistently impressed in a special way, both in terms of quality and quantity. Mr. Umari was exceptionally reliable.

He found excellent solutions to every problem that arose, without exception. Mr. Umari's performance has earned our full recognition in every respect, without exception.

He was highly regarded by everyone for his consistently friendly and even-tempered nature. He was always helpful and courteous, and when necessary, he even put his personal interests aside. His conduct toward superiors, colleagues, and customers was exemplary and loyal without exception.

Mr. Umari is leaving our company on September 30, 2022, at his own request. We deeply regret this, as we are losing an exceptionally good employee.
We thank him for his consistently excellent performance and wish him continued success and all the best for the future, both professionally and personally.

Munich, September 30, 2022
